NEW DANGER THREATENS SUCCESS OF ARMS PARLEY

NAVAL LIMITATIONS BASE F DICKERING

Arms Conference Delegates Alleged To Be Using Hughes Proposal As Back Log On Far East Questions—Briand Sails For His Home

CHINESE DELEGATES PROPOSE TO STICK

Washington, D C, Nov. 25.—The United States today was preparing to cope with a new danger to the success of the Arms Limitation Conference.

This was a tendency on part of some of the delegates to delay settlement of the naval armament limitation question for the apparent purpose of making better bargains on Far Eastern questions.

An American official said that in some quarters there is a seeming intent to withhold assent to the naval programme until all angles of the Far Eastern question have been canvassed. The "game", this official declared, is to see what terms can be arranged on the Anglo-Japaneses Alliance, Japanese and other foreign spheres in China, Siberia and elsewhere," and if those terms are not satisfactory to refuse to agree to the Hughes proposal until satisfactory bargains can be made.

New York, Nov. 25.—I prefer to depend on what Sir Arthur Balfour, British delegate to the Arms Conference. said in Washington, Premier Briand, of France, declared today as he sailed for home aboard the liner Paris. He referred to the attack on the French principle of maintaining an army made by Lord Curzon in London last night.

"We know these little family affairs" said Briand, as he waved good by to those who came to see him off "As far as I am concerned the expresison of opinion made by Mr. Balfour in Washington is the official opinion of the British government."

Washington, D. C., Nov .25.—The Chinese delegation today sent assurances to Secretary of State Hughes, chairman of the Arms Conference, that they had no intention of with drawing from the parley because of objection to the semi-official British view calling for the internationalization of China.

ST. LOUIS POLICE UNCOVER BOGUS SECURITIES PLOT

Broker Who Went To Wall Is Arrested On Charge Of Counterfeting $1,500,000.

(By United Press)

St. Louis, Mo., Nov. 25.—A plot to manufacture bogus French securities by a clever counterfeiting machine was believed to have been uncovered here today with the arrest of C. V. Halliday, aged 19, who is held without bail on a charge of counterfeinting $1,500,000 worth of the securities

Halliday, whose brokerage firm recently went to the wall, admitted passing $63,000 worth of the bogus securities on St. Louis banks in an attempt to make up the loss, which is said to exceed $140,000. Although he has confessed to having printed $1,500,000 only $63,000 worth of the securities have been placed on the market so far as is known.

CENTRAL PENN. COAL OPERATORS REFUSE TO COLLECT FEE

Altoona, Pa., Nov. 25.—The Central Coal Association operators have refused on advice of counsel to collect the $1 assessment levied by Mine Workers' Union officials for November, December and January. The assessment was levied to replenish the strike fund it is claimed.

The operators, upon receipt of the notice of the assessment of $1 a month for three months levied by the officials in hope of securing $1,500,000 to finance strikes, asked their attorneys for an opinion, and were advised not to collect.

ANTHRACITE COAL TAX LAW TEST STARTED TODAY

Anthracite Interests, In Protest Of Constitutionality Of Law, Begin Proceedings Today.

(By United Press)

Harrisburg. Nov. 25—Test of the constitutionality of the Anthracite Tax of May 11, 1921, was begun at noon today before the Court of Comm Pleas of Dauphin county.

Harry S. Drinker, attorney for the anthracite coal interests, protesting against the tax, made a brief talk in opening the case in which he set forth that the difference between anthracite and bituminous coal is one of degree and not of kind, and that it is unconstitutional to tax one and not the other.

He cited the decree of the courtin the Albans case, wherein the court held that the Dawson Anthracite Tax of 1912 was unconstitutional,and as one which settled every point and left nothing for the present court to do except agree with the decision.

Mrs. Erie Lundberg, of Reading, sister of Dr. O. A Newman, attended the Johnson-Newman wedding Thanksgiving Day.

FRENCH GIRLS COMB STREETS OF PARIS FOR HUSBANDS

Paris, France, Nov. 25.—Luckless men scurried for cover here today when mobs of French girls combed the streets of Paris in search of husbands

It was St Catherine's Day, the traditional time when mobs of French girls who have reached the age of 25 go out on the highways and byways and pluck their future husbands from the pavements. Hundreds thronged the streets tuday and surrounded and mobbed men of eligible age.

ARBUCKLE READY TO GO ON STAND TO TESTIFY

Attorneys For Defense Outline Program ---Prosecution Ready To Wind Up State's Case

San Francisco, Cal., 25.—Roscoe "Fatty" Arbbuckle was ready to day to go on the witness stand and make a sweeping denial of the charges that he was responsible for the fatal injuries of Virginia Rappe, beautiful young movie actress during the famous Pajama party on Labor Day. If he testifies today Arbuckle, it is understood, will declare:

1. That he was not alone with Miss Rappe in the hotel room for more than ten minutes.
2. That he followed her into his bed room only after he saw she was ill.
3. That she became hysterical when he attempted to care for her.

Attorneys representing the fat comedian let it be known that they will start introducing testimony which probably will include inside details of parties in moviedom, testimony of medical and finger print experts, a story of the life of Virginia Rappe, and finally, as a grand climax, perhaps the personal appearance of Arbuckle on the stand.

Persecution Has Evidence

Locks of Virginia Rappe's hair, alleged to have been found scattered over Arbuckle's bedroom, a feather said to have been taken from a pillow on Arbuckle's bed, and perhaps bathroom fixtures bearing finger prints are to be introduced in an attempt to send Arbuckle to prison for ten years on the charge of manslaughter.

These exhibits, according to the prosecution, were found when a microscopic examination of the floor in Arbuckles' room was made by a state criminologist.

ARRESTS PROMISED IN PHILADELPHIA BOOTLEG CIRCLES

Names Of Booze Ring Head And Secret Service Man Accused Of Bribery Given Official.

Philadelphia, Pa., Nov. 25.—Arrests and action by the United States Attorney in connection with the alleged $25,000,000 rum plot uncovered here may be expected shortly, Prohibition Director Rutter said here today.

Transcripts of the evidence, implicating the head of an export firm here a former high official of the Secret service and others in the alleged plot will be furnished Federal Attorney Coles, Rutter said. It is alleged the former secret service official offered a bribe of $50,000 to customs men to "fix the customs end" of a plot to withdraw liquor, with a bootleg value of $25,000,000, replace it with water, export the water in place of the real liquor and then sell the booze itself on the local market.

ULSTER PREMIER HEARS ALTERNATIVE PEACE PROPOSALS

(By United Press)

London, Eng., Nov. 25.—Sir James Craig, premier of Ulster, went into conference today with Lloyd George to hear the "alternative" proposal of the British for an Irish peace.

Sir James Craig will carry the proposal to Belfast where it will be placed before the Ulster cabinet Monday or Tuesday.

LOCAL GIRL WEDS HARRISBURG DOCTOR

The spacious home of Mr. and Mrs George W. Johnson, on Second street, was the scene of a pretty home wedding Thanksgiving morning when their daughter, Miss Edna Johnson was united in the holy bonds of wedlock with Dr. Oscar A. Newman, of Harrisburg. The ceremony took place at 10 o'clock and was performed by the bride's pastor Rev. W. W. Hartman, of Trinity Methodist church, in the presence of the immediate families and a select number of the most intimate friends of the couple.

The groom was attended by Dr. William Eagle Vallerchamp, of Harrisburg, while Miss Pearl Woolridge of Woodland, was bridesmaid.

The marriage took place in the parlor which was artistically decorated, the color scheme being yellow and white. The bride was given in marriage by her father. She was gowned in brown brocaded Canton crepe and wore a corsage bouquet of lilies of the valley and violets. The bridesmaid wore blue panne velvet and carried pink chrysanthemums.

During the ceremony Miss Mary Mitchell sang "Still as the Night" in an especially pleasing manner.

The bride is the eldest daughter of Mr and Mrs. Johnson and a most charming and accomplished young woman. She is a graduate nurse and was in the service at both Camp Eustace and Camp Dix during the World War.

The groom is one of Harrisburg's prominent physicians and the newly weds, after an extended honeymoon will reside in the capital city.

AMERICAN EDUCATION WEEK, DEC. 4—10.

Harrisburg, Pa., Nov. 25.—Governor Sproul today issued a proclamation calling on the people of the state of Pennsylvania to observe the week of December 4—10 as American Education Week.

EX-CONGRESSMAN C. H. ROWLAND DIES THURSDAY AFTERNOON

The West Virginia, superdreadnought, going down the ways at Newport News, Va., to dip its nose for the first time in the waters of the sea. If the plans of the arms conference carry, this ship will not disport itself on the waters for long. It'll go to the scrap heap.

EX-CONGRESSMAN ROWLAND DIES

Prominent Philipsburg Man Passes Away After Short Illness—62 Years Of Age.

BURIAL SATURDAY

Hon. Charles H. Rowland, former representative in Congress from the 21st Congressional District and one of the best known men in the Houtzdale coal region, passed away at his home in Philipsburg Thursday afternoon at 12:15, aged 62 years.

The deceased had been in impaired health for several months but had improved greatly in health recently. On Tuesday afternoon last he ruptured a blood vessel and was taken seriously ill. He continued to fail rapidly after being confined to his bed, becoming unconscious about 9 o'clock Wednesday evening. He remained in that condition until the end.

Charles Hedding Rowland was born in Hancock, md. Dec 20, 1860. On his father's side he was the product of the sturdy Dutch stock which came to this county in 1658, settling in what is now the State of Delaware. His ancestry were among the pioneer powder manufacturers of the colonies. On his mother's side he was of Scotch-Irish descent. His education was acquired in the public schools.

Located in Coal Fields Years Ago

When a young man he located in the Houtzdale coal field and has been closely identified with the growth and development of that region the past two score years. He was a progressive, hardworking business man and by untiring energy developed into one of the most successful coal operators in the Central Pennsylvania field.

He was also identified with many other business enterprises and upon removing from Houtzdale to Philipsburg some fifteen years ago interested himself in the development of the resources of that section. He developed the Centre and Clearfield Street Railway as well as the Pittsburgh & Susquehanna Railroad and had large real estate holdings in Philipsbhrg and vicinity He was President of the Moshannon Coal Mining Company, the Pittsburgh & Susquehanna Railroad Company, the new Philipsburg Hotel Company and also owned the Rowland Theatre. In addition thereto he was a director and the moving spirit in many publice and private boards or institutions having for their objects the advancement and betterment of his community and its people.

Married in 1886

In 1886 he was united in marriage with Miss Annie Cutshall, who with three sons and two daughters survive him. They are: Howard, Edward and Charles of Philipsburg; and Mrs. J C. Hollenback, of Philipsburg and Mrs. J. C. Meyer, of Clearfield.

An ardent Republican he was the nominee of his party for Congress in the 21st District in 1914 and was elected over William E. Tobias, his Democratic opponent, and reelected in 1916, retiring from active politics after his second term.

Charles Rowland was a real man and could honestly be styled "one of nature's noblemen," and while an indulgent Nature gave to him a physique away above the average of man, he was endowed with a mind and heart thoroughly in keeping with the generous proportions of his body He was honest and upright in his dealing with his fellows, the ideal husband and father, the keen calculating business man, generosity personified and the staunchest of friends No man occupied a more commanding position in his community and no man will be more greatly missed. The death of Charles H. Rowland is a distinct loss not only to his home community but to this entire region.

The deceased was a consistent member of the Protestant Episcopal church and was also affiliated with the Masons and the Elks. The funeral will take place from his late home Saturday afternoon at 2 o'clock.

BLACK HAND SUSPECTED

Gallopolis, O., Nov. 25.—Captain Fred Ebersach, wealthy coal operator at Pomeroy Bend today turned over to Postal Authorities an alleged black hand letter demanding $25,000. The letter stipulated the money was to be dropped from the machine near the Fair Grounds.

HOUTZDALE MAN DIES AS RESULT OF AUTO WRECK

Felton Ohs, One Of Trio In Wrecked Car, Pierced To Heart By Piece Of Railing Timber.

Felton Ohs, aged 23, of Houtzdale employed as an auto-mechanic at Jones' garage at Blue Ball, is dead at his home in Houtzdale as the result of an automobile acicdent which occurred on the State road between Madera and Houtzdale Sunday afternoon about 4:30 o'clock.

Ohs, Albert Simendinger, A. P. Mills and Walter Prince were out driving Sunday in Simendinger's automobile. Just outside of Madera at a point where the new concrete road joins the brick road through Madera the car left the road and struck the guard rail or fence at the side, head on Three or four posts were broken off by the force of the collision while the 4x4 railing went through the windshield and striking Ohs pierced his breast and instantly crushed his life out.

Others Escaped Serious Injury

The other occupants of the car managed to escape with but minor bruises.

County Coroner Pollum, of DuBois, was notified of the accident and he deputized Squire John Scollins, of Houtzdale, to have a Coroner's inquest into the happening. Squire Scollins is conducting the inquiry this afternoon.

Ohs lived with his widowed mother at Houtzdale. A sister, Miss Ruth Ohs, is a nurse at the Clearfield Hospital.

Henry McDowell, little son of Mr. and Mrs. L. A. McDowell, who has been very ill, is able to be about again.

ECHO OF SUMMER BASEBALL SEASON HEARD—AUDIT COMMITTEE NAMED

An echo of last season's more or less stormy baseball era was heard Wednesday, following the meeting of the directors of the Clearfield County Athletic Association, at which no quorum was present. when Pres. Joseph E. OLaughlin sent out the following letter to all of the directors:

"Twice a meeting has been called to wind up the affairs of the last base ball season. A quorum was not present at either meeting. Some directors were out of town, some so engaged they could not attend the meeting. Notice of the meeting of last night was published in the "Progress" and each Director's office was telephoned.

"We must wind up the season's business. So I by this appoint Dr. Cowdrick of those last elected as members of the Board, and Mr. Cecil Wilson of the first Board, and Mr. Lou Gaulin, who is familiar with the financial affairs of the Association, as a Committee to audit the accounts of the Association and to report to the full Board what distribution should be made of the cash balance in the treasury.

"Part of our Workman's Compensation Insurance premium remains due and should be paid.

"After this business is disposed of it is due the supporters of the Association that a meeting of them be called that they may determine if a base ball schedule be arranged for next season. The directors and officers for the next season should be soon elected. After the audit of accounts is finished and submitted to you a public meeting will be called.

Very truly yours
JAS. P. O'LAUGHLIN
President, Clearfield County Athletic Association."

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The closing game of the Football season here was played Thanksgiving afternoon. The home team lined up against Bellewood, sure of victory, nor were they disappointed for the close of the game showed a score of 36-6. Bellwood put up a mighty fine game but was no match for Norris and Brunetti who played like professionals. It is unusually regretted here that the season is closed. Had it been a few games longer Curwensville might have coaxed or shamed a contest out of Clearfidel.

With next week's issue, The Herald—Curwensville's only newspaper, becomes the property of Joseph G. Fullerton to whom Mrs. Myrtle Bixler has sold the paper and printing plant.

BE OBSERVED IN STATE SCHOOLS

Harrisburg, Pa., Nov. 25.—In connection with the 1921 Christmas Seal Sale in Pennsylvania, tuberculosis day will be observed in the schools on Friday, December 9th, and tuberculosis day in the churches on Sunday, December 11th.

These day will be features of Health Week, December 5th to 11th inclusive, which will be observed by local branches of the Pennsylvania Tuberculosis Society and other local health and civic organizations in cooperation with Rotary Clubs. Governor Sproul in voicing approval of these tuberculosis days Monday said: "Most of the states of the union in connection with the fourteenth annual tuberculosis Christmas Seal Sale, and in accordance with the suggestion of the National Health Council in co-operating with Rotary Clubs will observe the week of December 5th to 11th inclusive as health week, with special emphasis on Friday, December 9th as tuberculosis day in the schools and Sunday, December 11th as tuberculosis day in the churches. In lien with the newly awakened community interest in health work throughout Pennsylvania, it is especially fitting that these days be so marked in this state and it is suggested that local health and civic agencies unite in the programs proposed.

Youngsters Are Interested

"One oft he most encouraging features of the efforts being carried on by Pennsylvania health workers in the eagerness and deep interest shown by children in the rules for good health. Such children will be a mightly factor in the improvement of our public health in the future."

Besides the tuberculosis days in the schools and churches other Health Week observances suggested are:

Monday, December 5th, Rotary health day; Tuesday, December 6th Health appraisal day; Wednesday, December 8th, Examination day; Thursday, December 8th; Public education day; Saturday Dec. 10th, Health field day.

In the schools on December 9th teachers wil give to their children stories and health instruction, especially relating to tuberculosis On Sunday, December 11th in the churches, pastors and laymen and Sunday School superintendents and teachers will speak on the duty of the individual toward tuberculosis, a preventable disease which kills more than nine thousands Pennsylvanians every year.

The annual sale of tuberculosis Christmas Seals and Health Bonds begins today.

Christmas Seals sell for one cent each.

Approximately twenty per cent of the money from Seals and bonds goes for the State and National fight against tuberculosis and the other eighty per cent remains with local tuberculosis organizations.

Since the Christmas Seal was first sold in 1908 in Pennsylvania as a means of fighting tuberculosis the death rate from tuberculosis has dropped steadily from 137.8 per hundred thousand to 105 in 1920.

A larger Christmas Seal Sale is asked to further lessen this preventable plague. Adontion of the Slogan "A Christmas Seal on every piece of mail", will help.

The official and recognizel Christmas Seal is diamond shaped. Printed in red, blue and green, it carries the double-barred tuberculosis cross and the slogans "Merry Christmas" and "Healthy New Year". Santa Claus has his arms around a boy and a girl.

WENT WEST IN 1921 RECORDS

Eastern Teams Fail To Make Top Showing In Games With West—South Fails In Test.

By HENRY L. FARRELL

(United Press Staff Correspondent)

New York, Nov. 25.—Eastern football did just a little better than hold its own against intersectional competition which reached its highest point during the 1921 season.

Results of the season in baseball language ould be:

Teams	W.	L.	Pct.
East vs. West	5	5	.500
East vs. South	9	5	.500
East vs. West & South	14	7	.666

The cold figures show that the east broke even with the west, but in reality the east was all to the bad in eastwest competition. Three big western teams defeated three of the very best elevens in the east, while no eastern team won over a real first class western team of high rating.

Balanced in the scales, the weight of these victories,—Chicago, 9, Princeton, 0; Nebraska, 10, Pittsburgh, 0; Notre Dame 28, Army 0—far outbalance the conquests of the east represented in—Navy 53, Western Reserve 0; Pittsburgh 21, Cincinnati 0; Harvard 19; Indiana 0; Syracuse 38, Ohio University 0 Army 21, Wabash 0. While they were not played against representative teams of the east, the west scored also when Notre Dame beat Rutgers 48 to 0 and Detroit won from Boston College 28 to 0.

Against the south, the east looked all to the good. Football in Dixie on the strength of season scores must come third behind the west and the east. The only thing impressive the south was able to show was in Centre's 6 to 0 defeat of Harvard and the Crimson was shown up in later but Notre Dame took the brilliance out of that victory by doing the same thing easily. By no means, though, should this be taken as meaning that [illegible] Dame.

Out of eleven games against eastern teams, Centre and Georgia Tech furnished the only two victories and Tech was later trounced by Penn State which gave them only a fifty-fifty break.

The nine victories of the east over the south were as follows: Penn 21, Virginia Military Institute 7; Penn State 35, North Carolina State 0; Penn State 28. Georgia Tech. 7; Navy 40. North Carolina State 0; Boston College, 23, Baylor 7;. Yale 34; North Carolina 0;. Harvard 10; Georgia 7; Dartmouth 14, Tennessee 3; Princeton 34, Virginia 0.

It seems that after all, the west must be recognized as the leader. For years westerners have been stoutly maintaining a claim to supremacy only to meet with ridicule or silent indiffernce from the east, but this year the figures bring out the legitimacy of the claim with a bang.

Properly Balanced Food Will Make Far Better Health All Round

There's no diet properly balanced without a goodly portion of milk. And when you drink that milk you want the purest that you can get. But there's a difference between pure milk and pasteurized milk. You may think you're getting absolutely pure milk but even tho it has been filtered through the finest filter you can procure and has not been pasteurized, there's a vast amount of impure matter that cannot be removed other than by the pasteurization method.

Pasteurized milk is as pure as the driven snow and that's the purest thing we can liken it to.

Dances Borrowed From Birds.

Like the art of song, that of the dance is employed by many birds primarily in the courtship of the female. The biggest bird of all—the ostrich—is a most indefatigable dancer, particularly enjoying the waltz. The moor cock is another dancing bird, from which the peasants of upper Bavaria have borrowed their famous "flat shoe dance," or clog dance.

Tuberculosis can be prevested in same way as small pox and typhus according to what is declared as the most important medical discovery of the year. The method has just been announced by Professor A. Calmette, assistant director of the Pasteur Institute, one of the most famous French savants.

Before the Academy of Sciences, Professor Calmette demonstrated that the Koch bacillis could be rendered sterile by cultivating a preparation of bile, which injected in the veins of animals causes an abundant production of "anti-corpos" from which in turn the serum is constructed.

The serum, if enjected in human veins, especially children of tender years, absolutely insures immunity from tuerculosis in any forph.

Professor Calmette emphasized that the serum has no curative powers. Medical circles hail the discovery as the greatest in the history of the anti-tuberculosis fight.

The three hundredth anniversary of the institution by the Pilgrim Fathers of the American Thanksgivng Day was celebrated throughout the length and breadth of a Free America yesterday. Each American observed the day in his own way and according to the dictates of his own conscience. What a change throughout the world since the day was first observed. In those early days fanaticism was rampant and supreme. It was considered as a matter of course that a man who did not believe as you did was to be exterminated. The war revenue tax bill as finally signed by President Harding makes many changes in the olll law. It might be well to note the following changes made in the taxing system:

Excessive profits tax is repealed, effective January 1, 1922.

All transportation taxes including taxes on freight, passenger and pullman transportation, the tax on express and parcel post packages and oil by pipe line are repealed, effective January 1, 1922.

All so called nuisance taxes are repealed, including the soda fountain tax and direct consumption tax on wearing apparel and furs.

Taxes on medicines and cosmetics are repealed.

Taxes on canes, traveling bags, pocket books, fans, etc., sold above a certain price are cut in half and levied on the manufacturers.

Income surtaxes are reduced from a maximum of 65 percent to a maximum of 50 percent.

Normal income tax rates are unchanged but additional exemptions are granted. Heads of families are granted an exemption of $2500 instead of $2000 if their income is $5000 or less and the exmption for dependents is increased from $200 to $400.

CHRISTMAS SEALS

The tuberculosis Christmas Seal, which was first sold in 1908, is a little sticker used on letters and packages during the Christmas season.

Seals sell for one cent each.

Approximately twenty per cent of the money realized goes for the state and national fight against tuberculosis and the remaining eighty per cent remains with local organizations.

The recognized and official Christmas Seal is diamond shaped and is printed in red, blue and green. It carries the slogans "Merry Christmas" and "Healthy New Year." Santa Claus has an arm around a boy and a girl.

The Seal bears the reproduction in red of the double barred tuberculosis cross.

This is the only Seal sold from which the proceeds go to recognized agencies fighting tuberculosis.

The sale of tuberculosis Christmas Seals and Health Bonds begins November 25th.

CHRISTMAS SEALS AID WORK OF CLINICS

Gifford Pinchot, Pennsylvania Chairman for the Christmas Seal Sale, in urging stronger support of the Seal Sale said:

"The State Department of Health this year found that its funds did not permit the maintenance of the tuberculosis clinics. It was a question of closing many of them or securing assistance from the community. In this extremity local tuberculosis societies connected with the Pennsylvania Tuberculosis Society and other organizations in dozens of places assumed the overhead expenses.

"Among the places where the tuberculosis organizations are either wholly or partly meeting this overhead expense are:

"Beaver Falls, DuBois, Clearfield, Titusville, Uniontown, Punxsutawney, Mifflintown, Scranton, Wilkes-Barre, Williamsport, Lewistown, Danville, Washington, Carlisle, Easton, Sunbury, Reading, West Chester, Johnstown, Strasburg and Waynesburg.

"This is a work that means much to our people and I am sure that they will back the societies and agencies that join with the state in supporting this work."

A GENERAL ORDER "CHRISTMAS SEAL ALL CHRISTMAS MAIL"

"Letters, invoices, packages, every piece of mail should bear tuberculosis Christmas Seals."

Will you issue such an order and help us continue the health work which is saving the lives of four thousand Pennsylvanians annually from death by tuberculosis?

The result of this tremendous crusade amounts to an economic saving of millions of dollars annually—a salvage that effects every person, every home and every business.

CHRISTMAS SEAL YOUR CHRISTMAS MAIL

OFFICIAL CHRISTMAS SEAL

This is the fourteenth Christmas season that these Seals have been sold. This is the only recognized Seal sold whose proceeds go to combat tuberculosis. This year it is diamond shaped, pictures Santa Claus with his arms around a boy and girl and bears the double barred tuberculosis cross. It is printed in red, blue and green.

STRONGLY APPROVE CHRISTMAS SEALS

Twenty-four well known residents of Pennsylvania have accepted places on the Christmas Seal Sale Committee of the state and are backing the sale. The chairman is Gifford Pinchot, State Commissioner of Forestry, and the Honorary Chairman is Governor Sproul. Mr. Pinchot announced the following on the State Seal Committee:

Col. Joseph H. Thompson, Beaver Falls, State Commander of the American Legion.

Cardinal Dougherty, Philadelphia.

Col. Edward Martin, State Commissioner of Health.

Judge George B. Orlady, Huntingdon, president judge of the State Superior Court.

Dr. Thomas Finegan, State Superintendent of Schools.

J. Leonard Replogle, Johnstown.

W. G. Dugan, Superintendent of Schools of Westmoreland County.

Agnew T. Dice, President of the Philadelphia & Reading Railway.

Vance McCormick, Harrisburg, newspaper publisher.

Fred E. Lewis, Allentown, former Congressman.

James H. Maurer, Reading, President of the State Federation of Labor.

Henry Hippie, Williamsport.

Rev. Dr. Lewis S. Mudge, Stated Clerk of the Presbyterian General Assembly.

Mrs. John O. Miller, President of the State Congress of Women Voters.

Mrs. Ronald P. Gleason, Scranton, former president of the State Federation of Women's Clubs.

John A. McSparran, Master of the State Grange.

Dr. Charles H. Miller, County Medical Director of Luzerne.

Gabriel H. Moyer, National President of the P. O. S. of A.

Bishop Cortlandt Whitehead, Pittsburgh.

Dr. Spencer M. Free, DuBois, prominent Rotarian.

I. H. Russell, Superintendent of Schools of Erie City.

Philip H. Dewey, Lecturer of the State Grange.

The Governor in writing the Pennsylvania Tuberculosis Society said:

"Good schools, good roads and good health are among the greatest gifts that a people can enjoy and I am sure that no movement is of greater value to the community at large than that of a society that does its utmost to stamp out disease. I wish you greater success than ever in this year's campaign."

Col. Thompson said: "It is a splendid work and one that all the good people of the country are glad to contribute to."

Mr. Pinchot's announcement said: "It means much for the effort being made to combat tuberculosis, and is a strong incentive to those engaged in this work, when such representative citizens as these so heartily support the 1921 Christmas Seal Sale. They are the strongest possible testimony that the cause is worthy and the organization sound."

Altitude.

Altitude in astronomy is the vertical height of any point or body above the horizon. It is measured or estimated by the angle suspended between the object and the plane of the horizon, and may be either true or apparent. The apparent altitude is that which is obtained immediately from observation; the true altitude, that which results from correcting the apparent altitude, by making allowance for parallax, refraction, etc.

Great Woman's Memory Faulty.

Caroline Herschel, the discoverer of eight comets, and the accomplished partner of her brother's astronomical labors, never could remember the multiplication table, and always had to carry a copy of it about with her.

The World and Art.

People love pictures. That is apparent to every thoughtful man who visits an art gallery. It may be true that comparatively few understand all that the artists have said, but it is equally true that, in general, the people take delight from the work of art.

Pleased With Begging Letters.

When the old shah of Persia visited England in 1873 some 8,000 begging letters were posted to him during his sojourn. He was much pleased with them and felt highly honored to receive so many letters, each of which he treated as a compliment. He had all of them securely packed into a trunk and dispatched to Persia, where they were deposited in his museum.

Pure Anglo-Saxon Word.

One use of the word "welkin" in modern English is the phrase "the welkin" rings. The word is a good middle English one, for sky or clouds; it is more commonly spelled welkas. The Anglo-Saxon word was "wolcen." There is supposed to be a connection between "welkin" and Anglo-Saxon "wolcen," to roll, but this has not been proved.

A Freak Dinner.

Freak dinners, says London Sketch, are no new invention; they are as old as the first rich and greedy men. One that took place some generations ago was held at Carlton house, Pall Mall. There were over 2,000 guests, and the two chief features of the occasion were a Big Ben, a porter eight feet high, and a marble canal down the center of the high table filled with living gold and silver fish.

Idea Worth Consideration.

Rats in cold storage rooms develop a remarkable growth of hair when the cats put in the dairy are cut get thicker and softer coats. It has been discovered in Liverpool. The question is now asked whether cold-storage conditions might not be employed to advantage for bald-headed men. Certain practical difficulties are in the way of cold-storage men, but it is urged that at least an artificial fur trade might be established by scientific utilization of this discovery.

Lincoln Highway Longest Road.

The Lincoln highway is said to be the longest road in the world. It connects 12 states and is laid out between New York and San Francisco, in as direct a line as possible consistent with the topography of the country. Its length is about 3,284 miles.

Put End to That Affair.

I met seventeen years of age and left school in junior high school when I met a traveling man who seemed very nice. After having gone with him three months I had fallen in love with him. He left about a week afterward to go to his headquarters. I received several letters from him, and then a sudden stop, when I received one of my letters back, which had written on the back: "Gone home to spend a week with his wife and children," and signed by his boss. —Chicago Journal.

The Sorosis Club for Women.

The Sorosis club organized with 12 members in March, 1868, by Mrs. Jane Cunningham Croly in New York, was the first woman's club in America. Its object is to further the educational and society activities of women, and to bring together for mutual helpfulness representative women of art, literature, science and kindred pursuits.

Money in Coconuts.

In the last few years a strong and growing interest has developed in coconut culture in the Philippine Islands. Not only are the native planters awakening to the advantages of modern methods, but foreign capital and enterprise see a prosperous future in the industry. It is virtually impossible for the prospective planter to either purchase or lease a bearing coconut grove, but large areas of virgin land are available for new plantations, more especially in the Moro province, where conditions are ideal for coconut culture.

Manners Exposed.

A sure sign of ill manners is to talk loud. If you are in a hotel, then you go into a store of talking in such a loud voice the janitor in the cellar hears you, quit it. All ill-bred people talk so loud that they drown everyone in the room.—Arkansaw Thomas Cat.

Primitive Living in Siam.

Apart from drugs, a few xylographs, some crude adornments for women, a little silk and felt, and a few simple woven tissues, no products of native skilled labor are on the market in Siam. And even much of what is produced in these few lines is merely an imitation of western and eastern arts. Small industries supply only the most urgent needs of the lower classes. The rich people buy their luxuries from abroad, and the poor make shabby shift with the cheaper fabrics.

Peculiar Earth Rumblings.

The neighborhood of Moodus, Connecticut, used to be celebrated for subterranean sounds known as "Moodus noises." Sometimes these or less reports, like the firing of small guns, were heard in 5 minutes, and again the noise was like a long-rolling of thunder. Slight earthquakes were probably the cause.

Trees Know Winter.

The great buds of the horse chestnut have a most elaborate arrangement for the winter protection of the delicate parts within, says the American Forestry Magazine. The baby flower cluster is covered by the downy growth of the undeveloped leaves. The latter are surrounded by the tough, hard scale, and these are varnished over to keep out the water.

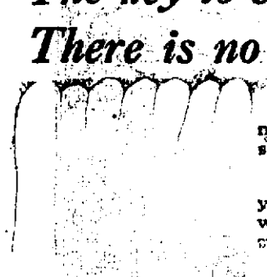
The key to success is work—
There is no substitute for it!



In order to do your best work, you must be healthy. You must sleep soundly at night, your nerves must be strong, steady and under perfect control.

If you are accustomed to drinking tea or coffee with your meals or between meals, you may be loading yourself with a very great handicap. Your nervous system may be stimulated beyond what is natural for you.

For tea and coffee contain theïn and caffeine. These are drugs, as any doctor can tell you. They are known to irritate the nervous system by their action and to cause restlessness and insomnia, which prevent the proper recuperation of the vital forces.

If you want to be at your best, capable of doing the very best work that lies in you, why not stop drinking tea and coffee? Drink Postum, the rich, satisfying beverage made from scientifically roasted cereals.

Postum contains absolutely no drugs of any kind, but in flavor tastes much like rich coffee. It helps nerve and brain structure by letting you get sound restful sleep.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Ask your grocer for Postum. Sold everywhere.

King of Signboards.

Probably the most elaborate signboard ever exhibited was that of the White Hart at Scole, Norfolk, England. Sir Thomas Browne, in 1663, described it as the "noblest signpost in England, about and upon which are carved a great many stories as of Charon and Cerberus, Actaeon and Diana, and many others." This king of signboards was erected in 1655, and is said to have cost over £1,000. It was in existence up till the end of the Eighteenth century, and possibly may still be preserved somewhere or other."

Their Remaining Years.

Statisticians tell us that, according to figures, if the husband dies first, the wife lives, on the average, another 11 years. If the wife dies first, the husband lives another nine years.

Timely Apologies.

Few things do more to lubricate the wheels of existence than the timely and kindly apology, and few things are more tiresome and irritating than the apology that is an intrusion and unnecessary. Well-bred persons are always ready with a more or less perfunctory "I beg your pardon" and they feel not the slightest humiliation in making this sort of apology. It is a remark that may be applied freely to perfect strangers as well as to close friends.

Simple Rule to Remember.

When should "fewer" be used, and when should "less"? Is it correct, for example, to say "I have no 'less' than 100 bushels"? The rule to avoid this common mistake is to remember that fewer is used when referring to numbers—as in the above example—and less when referring to quantity.

LOCAL FORESTER WELL EQUIPPED TO FIGHT FIRE

Harrisburg, Pa., Nov. 24.—Supplied with an equipment of approved fire fighting tools, and with a strong sentiment against forest fires in his district, Forester Dague, of Clearfield, views the Fall fire season with less fear than he has experienced in several years. Almost all of the forest fire wardens in his district have been provided with axes, torches ,spray pumps, rakes, buckets, and cantens.

So far this season only one small fire has occurred in the Moshannon State Forest District. This fire burned over only about one-fourth of an acre of grass land before being put out.

District Forester Dague has made an inventory of young forest trees growing in the Clearfield nursery. His report shows there are several million seedling more than last year. The nursery has an annual capacity of between three and four millions of small trees and it can produce several thousand ornamental trees, three to four feet high.

There are now about 6,000,000 seedlings in the nursery, of which 1,000,000 will be available for planting next spring. The nursery is now running at full capacity, and in the spring of 1923 there will be about 4,000,000 seedlings ready for planting. Seventy five pounds of white pine seed were planted recently.

C. D. A. BAZAAR IS BIG SUCCESS

The Bazaar held by the Catholic Daughters of America during the first three days of this week was a decided success both socially and financially.

The ladies introduced many novel features especially the Rose Tree and the HopeChest together with the usual hand made fancy work, doll booth and candy table, amused the large crowds which gathered nightly in Thayer's Auditorium.

Dancing was a feature and the floor was crowded each evening.

The C. D. of A. formerly Daughters of Isabella, is a social and charitable organization which has been recently established in Clearfield, and the proceeds of the Bazaar will be devoted exclusively to the Charity Fund. The ladies deserve much credit for their work and wish to thank the general public for their interest and attendance.

The greatest zinc mine in the world, located in Sussex county, New Jersey, has been worked almost continuously since Colonial days.

First Version of English Bible.

The first complete version of the English Bible was that of Miles Coverdale. It appeared in 1535 and was based on the Swiss-German version published at Zurich in 1524-29. In 1382 there had appeared a version attributed to Wycliffe, but the gospels alone can be identified as the work of Wycliffe himself. The translation of the Old Testament and the Apocrypha is the work of Nicholas de Hereford. The translation of the New Testament by William Tyndale appeared at Worms in 1525; later editions in 1534-35.

Largest Known Nugget.

The National Geographic says that according to the records the largest California gold nugget ever found in Mormon Gulch in Sierra county and weighed 1593 troy ounces.

Word Comes From the Norse.

The Norse word for bay was "wic," and this has survived in such place-names as Greenwich. Now, in shallow bays salt would be formed by the evaporation of the water, and so a salt-making house was known as "wych house."

—Kipling.

THE ODORIFEROUS BULB.

The essential oil which is so pronounced in the onion makes it invaluable as a flavor vegetable.

Scrambled Onions. — Wash, cut up, and cook in boiling water two or three bunches of young green onions. Allow the water to cook away, leaving just enough to prevent burning. In a frying pan place a tablespoonful of bacon fat; add to this as many eggs as needed to serve, let cook until the whites are set, then gently scramble with the onions, season and serve. Cold boiled onions may be used, adding a tablespoonful of milk for each egg used.

Young Onions With Egg Sauce.—Chop young onions and cook until tender in milk. Drain and thicken the milk with one tablespoonful of flour smoothed in a well-beaten egg. Add butter and two hard-cooked eggs, chopped.

Onion Soup, French.—Brown six large sliced onions in two tablespoonfuls of butter, then sprinkle with two tablespoonfuls of flour, stirring until the flour is browned. Thin with a quart of meat stock or liquor left from cooked peas; stir until creamy. Season with pepper and salt, simmer 15 minutes, put through a sieve and serve with croutons. Add a sprinkling of cheese, if desired.

Onion Chowder.—Wash, peel, and chop enough onions to make one pint. Prepare enough potatoes to fill a quart measure. Place the onions in a kettle holding three quarts of boiling water, cook thirty minutes, add the potatoes, season with salt and pepper and cook one hour longer. While cooking, season with a teaspoonful each of parsley, chervil and sweet peppers; add two tablespoonfuls of butter. To increase the food value, add all or part milk instead of the water.

Baked Stuffed Onions. — Parboil large-sized onions and remove the centers. Chop the part removed, add sausage or other highly seasoned meat, salt and pepper or chopped nuts. Bake, basting during the baking with butter and water, or pour over the onions thin cream. Bake until tender.

Something to Worry About.

Some people admit frankly that they made all their friends, but they can't understand where their enemies come from.—Columbia Missourian.

Thought Worth Pondering.

It is a sad weakness in us, after all, that the thought of a man's death hallows him anew to us; as if life were not sacred, too.—George Eliot.

A Kansas Explanation.

No wonder a hen cackles. When she has laid an egg she has launched the potentiality of a son that never sets.—Abilene Reflector.

A Losing Game.

Working six hours a day to defeat competition and four hours to make a living is a losing game too many people play.—Atchison Globe.

[illegible] contests, sailing or motor boats, is called regatta." This word was borrowed from the Italians, who used it in connection with the boating contests on the Grand canal in Venice. The same word, however, meant to haggle over prices. The first "regatta" to be held in England took place on the Thames on June 23, 1775; but of course this wasn't by any means the first boat race held in England.

Horseshoes Long in Use.

It is impossible to state definitely when horseshoes were first used. A coin in the British museum, from Tarsus, made about 200 B. C., is supposed to represent a horse being shod. It is not likely, however, that shoeing with iron was at all common in the early part of the Middle ages. William the Conqueror is believed to have introduced the art into Britain. For centuries the art of the shoesmith ranked with that of the scholar and bard in England and France, and even kings practiced the art.

Simple Rule to Remember.

When should "fewer" be used, and when should "less"? Is it correct, for example, to say "I have no 'less' than 100 bushels"? The rule to avoid this common mistake is to remember that fewer is used when referring to numbers—as in the above example—and less when referring to quantity.

[illegible] of the cultured pearl. Although it is made by exactly the same process as the real pearl, there is a difference which is readily detected by experts. It is claimed on behalf of the naturally grown pearl that the cultured pearls never grow to any great size, five to seven grains being the limit. It is also claimed that the cultured pearl lacks any warmth of color which is generally present in the natural pearl.

Mosquito Plague in Alaska.

Alaskan mosquitoes do not act as carriers of malaria and yellow fever as do those of the United States and tropics, but they are very vicious. They literally fill the air. In one sweep of an insect collecting net about his head, Dr. Aldrich was able to capture 110 mosquitoes by actual count.

Scotland's Oldest House.

The oldest house in Scotland, Glamis castle, which has been inhabited by Lord Strathmore's family for 600 years in direct line from father to son, was built in 1010. The vaulted crypt and the stone-flagged hall leading out of it have not been altered since the Eleventh century, nor has the room above where Malcolm II of Scotland was murdered in 1034. Glamis abounds with interesting relics, including the only complete fool's dress of motley known to exist in the United Kingdom.

Self-Denial Went for Nothing.

A young woman was singing at a church social. She had a beautiful voice and sang with much feeling. After the singing was over a friend asked her how much she got for it. "Not a cent," she replied. "I sang for love." "Then you should have sung for nothing," said her friend. "That's what I did," she replied.

Really Poor People.

People reckon themselves poor as they lack money, yet there is a greater poverty. Many men and women go through the world unaware of the beauty, the goodness, and the glories in it. Such people, though they have money, are poor indeed.

United States were cut into strips of paper as wide as the average daily paper they would form a ribbon 40,000,000 miles long or more than half the distance to the sun. These same newspapers would also make a strip two feet wide belting the world 16,000 times.—The Thrift Magazine.

Babylon Had Woman's College.

In an ancient Babylon province there have been discovered records on clay tablets belonging to the period of about 2400 B. C., showing that a woman's "college" or "university" had been established in a suburb of the city called Burim, and that women had equal rights with men in commercial, property and political affairs.

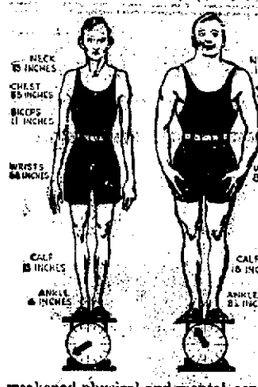
Take Yeast Vitamon Tablets To Put On "Stay-There" Flesh

AND INCREASE YOUR ENERGY QUICKLY, EASILY AND SURELY AT SMALL COST



Thin or run-down folks will find this simple test well worth trying: First weigh yourself and measure yourself. Next take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself again each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy. Mastin's VITAMON contains highly concentrated yeast-vitamines as well as the two other still more important vitamines (Fat Soluble A and Water Soluble C), all of which Science says you must have to be strong, well and fully developed. It is now being used by thousands who appreciate its convenience, economy and quick results.

IMPORTANT! While the amazing health-building value of Mastin's VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased to normal. Do not accept imitations or substitutes. You can get Mastin's VITAMON tablets at all good druggists.

IMPORTANCE OF GOOD SIGHT

All your knowledge is obtained through your five senses: seeing, hearing, feeling, tasting and smelling. The most important of these is the sense of sight.

You only have two eyes. If the y should fail you—what then? A little serious thought should impress you with the importance of giving them the proper attention now, before they give evidence of impaired sight.

Wright's Liquid Smoke And Ham Pickle

That's been an old favorite among a lot of folks who do their own butchering and then cure their own meats. It's the best thing of its kind that we know of and we've gotten a lot of praises on it.

Our Baked Beans Better Each Day

The best way to tell how good they are is the fact that hardly a day passes but what someone comes and asks for "some of those good beans". When folks ask for such things to eat time after time, there's certainly something in it in the way of goodness.

We make them over an old and approved method—a method that makes for the best beans that you ever put into your mouth. Good beans, the best pork we can get an da method of cooking that makes every bean as good as a bean can be made.

Try them once—you'll be back again.

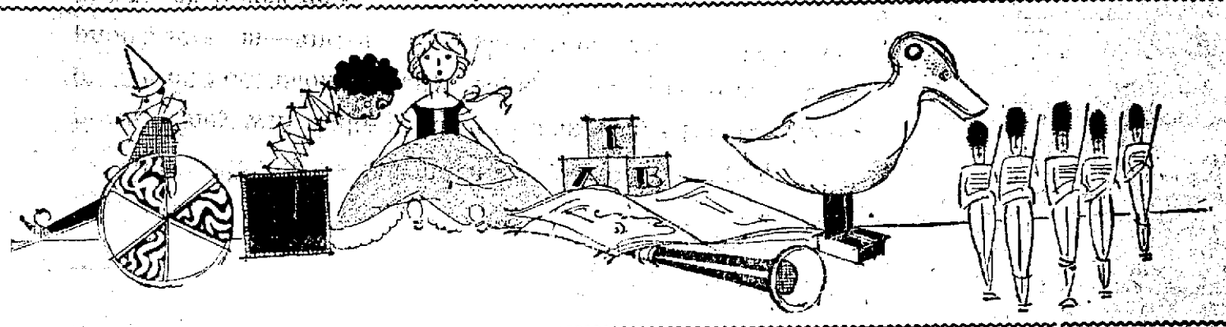
Do Your Christmas Shopping Early

SO SHE IS SHOPPING EARLY

"Yes, I've more than half my shopping done," we overheard a woman say yesterday—"last Christmas I shopped late, and was so tired on Christmas day that my little son said to me, 'Why, Mother, you shouldn't be tired on Christmas, I'm not tired'—so this Christmas I'm shopping early. It's really fun, for you can generally get first choice, and the salespeople are so willing to show you things, for they aren't so rushed and tired."



TOYLAND HUMS WITH THE CHRISTMAS SPIRIT
